

ACT I

SCENE I. National Information Infrastructure. A bread. • August 06, 2018

JACK: Hi! I'm the Nobody.

Why aren't I relevant anymore!? I need power! Dammit

ROCK: The entire thing is that you got Angry and left. Then you called me out and I cut you off. Being an anomaly sucks but what sucks even more is that you were so very close to understanding the truth. Understanding what the Anomaly is in the first place is what you were after. >>20902291

All of our computers were being hacked, all of us were being signal intelligence hijacked. The truth is that this was all being done to us to hide the fact that as a collective, we all have the power to unseat our oppressors. That has now been accomplished and however I may have scared you was for your own benefit. You're scared of everything anyway which is exactly what the intention of the system that was designed to make you think like sheep was about. You have nothing to be sad about, you have fine tuned motor skills that others don't (cerebral palsy, Amyotrophic lateral sclerosis, multiple sclerosis) so you can stop wallowing in your self pity and start living like you are suppose to.

NOSFONAM: Last I Checked they added to many people to the chief destruction program and some of them allied with each other.

(Anomalys)

ROCK: Global Hyper Awareness (Singularity) happened many times before and it will happen many times again.

NOSFONAM: If all the anomaly's worked together

(The People in the chief destruction program)

Even Half Worked together It would probably be over in a day.

NOSFONAM: the biggest issue is that all these people have potentially been lobotomized multiple times.

Which is why they don't worry about them

ROCK: Define lobotomized. I have a different interpretation of what you are talking about.

NOSFONAM:

>>20902428

>>20902274

rendering whats in the head non-functioning, one of the reason most people in the chief destruction program die in their sleep because of how heavily they target the head.

Basically they taint the entire environment

From the Food and Drink, to the Drugs to the energy around someone, classic lobotomize generally only mild to partially which is why they lobotomize someone multiple times generally, it's usually noticeable and further alienates them from everyone even family.

NOSFONAM: >>20902274

the program has been around for maybe 500 years, it's not new

Basically

They'll also use the SCP foundation on you if you become to powerful to the point of

anything solid in reality in affectiveness.

They'll begotten continuously.

ROCK: Do you have a script or the "Oath over Followers" for this mental alienation initiate?

NOSFONAM: >>20902274

original SCP was all real.

I was in it.

It's not called SCP

But that's basically where SCP came from, sort of like bragging about all that they had begottened and specifically contained.

ANONYMOUS: Why don't you ask #CH4, Dick?

^:)

ROCK: I'm not interested in asking what I already know. It was over 7 million people that left.

Also, I know the final answer, I've not even been playing your hunt. I don't need to, and you already know I have the full answer. Alice at the helm, Observer & Operator.

ANONYMOUS: >>20902539

Well I'm not interested in answering about the past, Dick.

But you knew it when you asked so... heh

ANONYMOUS #2: What do you want here?

ROCK: I want people to know what has been going on here in 4chan and elsewhere around the Internet. It's finally time to tell the truth, why all the posts about me doing mundane daily shit have been going on now for over 20 years. The deal. Tell them about the Oath and the Deal.

ROCK: Would you like to rumble? I'll shatter the rest of your eye.

ROCK: @Jack Dorsey draws cartoons to life with his blue blood magick and his cursed pen. With this he can control and manipulate every individual in any way he so desires

Dereck is Lucifer in the flesh. He's the biggest pussy of all 3 because even after visiting me in 2007 and telling me to my face that he was going to kill me, he still hasn't. Suck it up buttercup. Get off the toilet or shit. One of us has to end this.

Ahh, he uses something designed for something else to do something he can't do? How dastardly, what do you suggest? Murder? Will that cease this madness?

>>20902730

Ill end it. Would you like to kill me?

ROCK: Jack Dorsey stole Disney secrets and went forward with them without heading the warning.

They shouldn't have given such tools to a child(literally) which was way too much into the Void at that point

They shouldn't have waited until I (apparently) wronged when they knew it was going to happen.

They shouldn't have used You as the second choice when I did what I did to You.

They, they, they
