The Illinois Neuropsychiatric Institute (NPI)

Foundation and Founding of the Illinois Neuropsychiatric Institute (NPI)

In 1917 psychiatrist Harold Douglas Singer (1875-1940) helped to found the Illinois Psychiatric Institute, but since the early 1900s he and other non-physicians such as Mr. A.L. Bowen, Director of the ...

Neuropsychiatry

Neuropsychiatry is a branch of medicine that deals with mental disorders attributable to diseases of the nervous system. It preceded the current disciplines of psychiatry and neurology, which had common training, however, psychiatry and neurology have subsequently split apart and are typically practiced separately. Nevertheless, neuropsychiatry has become a growing subspecialty of psychiatry and it is also closely related to the fields of neuropsychology and behavioral neurology. More at Wikipedia
