No faggot Infinity got taken down because Purple Namefag exposed Q and a bunch more dirty laundry and they couldn't keep paying mods to censor threads 24 hours a day. Q is a modified limited hangout part of many programs overseen by Jared Kushner to keep MAGAtards trusting the plan while Trump does Israel First and Most Immigrants Ever.

I just read partial disclosure comes after August 15  
 Well I hate to burst your bubble about Antarctica  
 But that base is not where the ET's are  
 Antarctica is closer to hell than anywhere on earth  
 It is the underworld and hell is a frozen deserted wasteland  
 The real ET's are humans but they have super powers  
 They are humans from the distant future that colonized the Galaxy

They do time travel as well as dimension travel  
 They have ascended as well as United their higher self with their lower self  
 Think about it, would you live on a permafrost tundra if you owned a fleet of spacecraft and several planets?  
 Our earth and our reality are nowhere near the cusp of reality where time is at the present day.  
 That is true disclosure, the knowledge of forever time

This place, this reality, is in the past and it is just simply a memory of what was, it is a memory of how humanity won the spiritual war, and how humanity spread love throughout the whole universe.
